

October 2020 Update

Following our September update, CCS would like to share the latest update on the Future Food Platform.

CCS have been asked to continue supporting the government's response to the Covid-19 pandemic with, amongst other things, Test, Track and Trace activity. This will mean that the CCS are reprioritising ongoing projects to ensure resources are allocated to support the government in protecting the interests of the nation.

For the Food Programme , this means we will be undertaking a review of the project plan, and realigning this to deliver a solution a little later than we had wished. We will continue to work in the background to ensure when we re-engage with the market we are ready to go to market.

Lines of communication will remain open for all interested parties. If you have any questions or comments, please do not hesitate to contact food@crowncommercial.gov.uk
