- Scroll down to Framework Reference
(e.g. RMxxx*) and type in framework number and include an * at the end
- Click on Search Now
- Select the Template / Lot of choice by clicking on

Example of what you should be viewing:

Click here to show pricing

- A list of attachments will be displayed.
- You can either:
 - Under **Content** click on the pricing and download
- OR
 - Select the one you want to view at the end of the row tick
 - Export
 - You may need to click on Export again in pop up box
 - It will show a box with the Status click on the Done and Download Results
(if it is taking too long click on refresh button and it will do instantly)
 - Open
