

# RM971 Non-Medical Non-Clinical (NMNC) framework

## Key Benefits

---

### Rates

- The only difference between the charge rates for any supplier is the fee they charge.
- NMNC has a **straightforward rate card** showing charge rates for both PAYE and limited company temporary workers, including provision for **compliance with Agency Worker Regulations (AWR)** following 12 weeks of service.
- The **NMNC Pricing Tool** clearly demonstrates the pay and charge rates for all NMNC suppliers, which can be negotiated.

### Compliance

- **Risk management:** focus on managing the risks associated with engaging temporary workers e.g. AWR and stakeholder pensions.
- NMNC helps with **compliance with HMRC IR35 regulations**.

### Call – off

- Award via direct call off or via further competition.
- The **NMNC Award Support Tool** provides a simple mechanism to input your requirement and secure access to suitable suppliers.

### Temp to Perm charges

- There are **no temp to perm charges:** if you comply with the transfer fee rules (supplier given notice for an 8 week extended hire period).

### Market Coverage

- NMNC can be used by wider public sector and government organisations to meet their temporary staff requirements.
- NMNC provides access to temporary staff at all levels, including board level roles.

### G-Cloud

- NMNC is the best route for temporary workers, including IT and digital interims. NMNC provides pre-employment check assurances and capped fixed supplier fees which are not covered under G-Cloud or DOS Frameworks.
- Suppliers are able to provide customers with quick access to potential interim staff CVs.

### Training

- Support from the Crown Commercial Service customer team and framework management team is available to access and use the framework.
-

### **Management Information**

- Management Information is available on demand for all customers to detail reported spend and market analysis.
